

A Key Skills

- Write as a decimal.
 - $\frac{2}{5} = \dots\dots\dots$
 - $6.1 \times 10^{-2} = \dots\dots\dots$
 - $3.5\% = \dots\dots\dots$
 - 5 hundredths = $\dots\dots\dots$
- Simplify.
 - $\frac{120}{50} = \dots\dots\dots$
 - $225 : 45 = \dots\dots\dots$
- Divide \$83.28 in the ratio 11 : 5
- Calculate.
 - $\frac{5}{6}$ of 1.2L = $\dots\dots\dots$
 - 160% of \$25000 = $\dots\dots\dots$
- 5a) What fraction is 360g of 4.2kg? $\dots\dots\dots$
- What percentage is 22 students of 1500? $\dots\dots\dots$
- Increase 375mg by $\frac{1}{5}$ $\dots\dots\dots$
- Give your answer in standard form.
 - 2.5×10^3
 - $1.25 \times 10^{-4} = \dots\dots\dots$
- Increase 375mg by $\frac{1}{5}$ $\dots\dots\dots$

B Applications

- A grower has sown seeds in 4 plots.

Seeds sown	500	650	300	700
Seeds germinated	428	570	274	628

 - Which plot has the highest germination rate (percentage of sown seeds to germinate)? $\dots\dots\dots$
 - What is the average germination rate over all four plots? $\dots\dots\dots$
 - Five hundred grams of Edam cheese cost \$4.35. Find the cost of 950g of Edam cheese. $\dots\dots\dots$
 - A block of cheese cost \$3.70. How much does it weigh? $\dots\dots\dots$
- 3a) Amanda paid \$385 for a bike which she sold a week later for \$340. What was her percentage loss? $\dots\dots\dots$
- \$3.20 GST was added to the price of a hammer. What is the price of the hammer including the 12.5% GST? $\dots\dots\dots$

C Problems

- Rodryn is renovating her bathroom. She has chosen tiles which come in boxes of 38, at \$40 per box. The area to be tiled is $9m^2$ and 25 tiles cover $1m^2$. Her DIY book advises buying 8% extra tiles to cover breakages and cutting halves. How much do the tiles cost? $\dots\dots\dots$
- Two years ago fresh Snapper cost \$15 per kg, the price goes up by 10% each year.
 - How much does Snapper cost now per kg? $\dots\dots\dots$
 - How many grams of Snapper can now be bought with \$15? $\dots\dots\dots$
- The body has about 4.8L of blood with about 2.5×10^{13} red blood cells. Blood donors give about 430mL of blood at a time. How many red blood cells do blood donors give each time they donate? Round sensibly. $\dots\dots\dots$

A Paving Pattern

- Study the pattern and fill in the table.

<input checked="" type="checkbox"/>	c	4			
<input checked="" type="checkbox"/>	g	0			
<input type="checkbox"/>	w	0			
- If the square has side n , find a formula for...
 - number of crossed tiles : $c = \dots\dots\dots$
 - number of grey tiles : $g = \dots\dots\dots$
 - number of white tiles : $w = \dots\dots\dots$
- Erica made a square of this paving pattern. She used 225 white tiles. How many grey tiles did she use? $\dots\dots\dots$
- 2a) $t_n = 2n^2 - n$. Write down the first five terms. $\dots\dots\dots$
- Write a rule for this sequence : 100, 94, 88, 82, $\dots\dots\dots$

C Dangerous Curves Ahead

Name each curve and work out an equation for each.

A		
B		
C		
D		
E		
F		

E Lines & Curves

- The line in this graph has equation $2x + 3y = 8$.
 - Find the x-intercept and the y-intercept.
- In the same graph draw the line $y = \frac{x+3}{2}$
- Solve simultaneously $2x + 3y = 8$, $2y = x + 3$

2. A rectangle has an area of $6cm^2$.

$6cm^2$	b
	b

a) Fill in the table with possible base lengths and heights.
